

## MATERIAL SPECIFICATION

### **535. PREFORMED EXPANSION JOINT FILLER**

#### 1. SCOPE

This specification covers the quality of preformed expansion joint fillers for concrete.

#### 2. QUALITY

Preformed expansion joint filler shall conform to the requirements of ASTM Specification D 1752, Type I, Type II, or Type III, unless bituminous type is specified. Bituminous type preformed expansion joint filler shall conform to the requirements of ASTM Specification D 994, or D 1751.
