

MATERIAL SPECIFICATION  
**535. Preformed Expansion Joint Filler**

**1. Scope**

This specification covers the quality of preformed expansion joint fillers for concrete.

**2. Quality**

Preformed expansion joint filler shall conform to the requirements of ASTM Specification D 1752, Type I, Type II, or Type III, unless bituminous type is specified. Bituminous type preformed expansion joint filler shall conform to the requirements of ASTM Specification D 994, or D 1751.
